

Heating Ozone Laundry Rebate

See our full Heating Efficiency application at xcelenergy.com/HeatingEfficiency for official program rules and requirements.

Customer information

Xcel Energy premises numbers: electric _____ and/or gas _____

Company _____ Date submitted _____

Installation address _____ City _____ State _____ ZIP _____

Mailing address _____ City _____ State _____ ZIP _____

(For rebate if different from installation address)

Contact (print) _____ Phone _____

Contact email* _____ Fax _____

Equipment location description (required)

The total project cost: \$ _____
(Acceptable expenses include equipment and labor and do not include tax, freight or shipping costs.)

Customer signature _____ Date _____

This signature is required from the individual tied to the Xcel Energy premises number herein. By signing here, I acknowledge the information in this application is accurate and complete. I confirm I have read, agree with and understand the terms and conditions on page 2 of this application.

Further, the undersigned acknowledges that nothing contained in this application shall impose any liability on Xcel Energy for the work performed for this Xcel Energy program by the vendor.

Alternate rebate recipient

Complete this section only if the customer wants the rebate check to go to someone other than the customer contact tied to the premises number above.

Company name _____ Contact name _____

Address _____ Phone _____

City _____ State _____ ZIP _____

I authorize the above company to receive the rebate check for this project:

Customer signature _____ Date _____

Xcel Energy account representative name _____ Signature _____

Trade partner information (vendor/contractor information)

Company name _____ Trade partner ID# _____

Contact (print) _____

Address _____ City _____ State _____ ZIP _____

Contact email* _____ Phone _____

*By providing your email address, you are granting Xcel Energy permission to send updates or questions via email regarding this project as well as future emails regarding our programs and services.

Qualifying customers

Xcel Energy prescriptive rebate programs are available to Xcel Energy business electric and/or gas customers that install qualifying equipment in Xcel Energy's Minnesota service territory.

How to apply for rebates

1. Fill out the rebate application (for each installation address).
2. Attach a copy of the paid, itemized invoice(s). Be sure that the quantity, make, model number and unit price of each item appears on the invoice.
3. Make a copy of this document for your records.
4. If you have questions please contact your Xcel Energy account manager or one of our energy efficiency specialists to discuss and/or complete the project application form.
5. You can email your completed project paperwork to: energyefficiency@xcelenergy.com, fax to: 800.311.0050, or mail to: Energy Efficiency Specialist, Business Solutions Center, P.O. Box 8, Eau Claire, WI 54702-0008.
6. Once completed paperwork is submitted, rebate payments are usually made in six to eight weeks after the rebate application has been processed.

Custom efficiency rebate program

Equipment that is not eligible for prescriptive rebates can be submitted through the Custom Efficiency program. **Preapproval through the Custom Efficiency program is required before the purchase and installation of equipment.** The Custom Efficiency rebate application and program details can be found at xcelenergy.com/CustomEfficiency.

Rules and requirements

- All equipment must be new. **Used or rebuilt equipment is not eligible for a rebate.**
- Equipment must meet program specification requirements and be purchased, installed and operating prior to submitting an application for a rebate. Xcel Energy reserves the right to withhold payment for products that do not meet the requirements.
- Rebates cannot exceed 60 percent of the project cost (including equipment and labor).
- A signed application and detailed installation invoice(s) must be completed and submitted to Xcel Energy within 12 months of the invoice date (24 months for motors, VFDs and constant speed motor projects). Ozone laundry invoices must be dated January 1, 2019 or later to qualify as a prescriptive rebate.

- Xcel Energy is not responsible for any lost, late, stolen, illegible, misdirected or postage-due mail.
- All completed submissions become the property of Xcel Energy upon receipt and will not be returned.
- Xcel Energy will issue a rebate in the form of a check.
- Xcel Energy reserves the right to conduct a random on-site inspection of your project before or after issuing a rebate. The customer agrees to provide reasonable access to inspect the installation. On-site inspections may be performed up to one year after the date the rebate check is issued. If Xcel Energy finds that the application does not comply with Xcel Energy rules and qualifications, any rebate amount may be adjusted, denied or subject to return.
- Program rules, requirements and offer are subject to changes at any time. Xcel Energy's prescriptive rebate programs are subject to 60 days' notice of cancellation. Changes or notifications will be posted at xcelenergy.com/Rebates. The customer and trade partner are responsible for contacting an energy efficiency specialist to determine whether the program is still in effect and to verify program parameters. Call 855.839.8862 or email energyefficiency@xcelenergy.com.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures, or local, state or federal regulations. Xcel Energy is not liable for rebates promised to customers as a result of misrepresentation of the program.
- Xcel Energy's acceptance of the application does not guarantee payment of rebate.
- Xcel Energy retains the right to limit rebates or to make adjustments to correct incentive calculations if necessary. Energy savings calculations are estimates and may vary from actual results.

Warranty information

- Xcel Energy does not endorse any particular manufacturer, product or system design by offering these rebates.
- Xcel Energy will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates; does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties).
- Xcel Energy is not responsible for the proper disposal/recycling of any waste generated as a result of this project; is not liable for any damage caused by the operation or malfunction of the installed equipment; and does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under these programs.

We are introducing new prescriptive rebates for either new or retrofit ozone laundry systems within our Heating Efficiency program.

Ozone technology is a process that offers high-quality cleaning without all the hot water and chemicals typically used in the commercial laundry process. Ozone laundry technology has proven itself to be an effective tool in helping to reduce water usage and energy consumption.

To qualify for either a prescriptive or custom rebate, the ozone laundry system is added on to either a new or existing commercial washing machine that use hot water heated with natural gas, and must be either a Venturi Injection or Bubble Diffusion type system.

Facility type

Please indicate the primary location where the ozone laundry will be located:

Hospitality / hotels, motels, etc. Hospitals Nursing homes / assisted living Penitentiaries / jails
Health clubs, professional sports organizations, etc.

Other: Please specify _____

Terms and conditions

- Installation of the ozone laundry must be complete and operational before submitting rebate application.
- The customer invoice or spec sheet must show manufacturer's name, the equipment model, the ozone laundry system's serial number, ozone laundry type, quantity and cost.
- **Invoices must be dated January 1, 2019** or later to qualify for a prescriptive rebate.
- Customers have 12 months from the purchase date on the invoice to submit their rebate application claim for ozone laundry.
- Used or leased equipment does not qualify for a rebate.
- The ozone laundry system must be either a Venturi Injection or Bubble Diffusion type system.

Custom qualifications

We offer custom rebates for ozone laundry that do not meet the requirements for our prescriptive program. Commercial washers over 500 lb. capacity fall under the custom heating efficiency program. **Custom Efficiency rebates require pre-approval prior to purchase or installation of the equipment.**

Rebate amount

\$35 per pound capacity of commercial washer up to 60 percent of project cost (not to exceed \$17,500 per ozone unit).

Qualifying systems include:

<=100 lbs.

>100 < 500 lbs.

Ozone laundry — new or retrofit								
Equipment rebate: \$35 per pound of laundry ¹	Machine size	Annual pounds of clothes washed per machine per year	Capacity in pounds of washing machine served by ozone generator	Type of water heating serving ozone laundry washing machine	Manufacturer	Model number	Rebate quantity	Total rebate
Ozone System 1	<=100 lbs. >100 < 500 lbs.			Gas non-condensing storage Gas condensing storage Gas tankless Gas storage with side-arm boiler				
Ozone System 2	<=100 lbs. >100 < 500 lbs.			Gas non-condensing storage Gas condensing storage Gas tankless Gas storage with side-arm boiler				
Ozone System 3	<=100 lbs. >100 < 500 lbs.			Gas non-condensing storage Gas condensing storage Gas tankless Gas storage with side-arm boiler				

¹ Rebates are capped at 60 percent of the project costs not to exceed \$17,500 per ozone unit.

Sample:

Ozone laundry — new or retrofit								
Equipment Rebate: \$35 per pound of laundry ²	Machine size	Annual pounds of clothes washed per machine per year	Capacity in pounds of washing machine served by ozone generator	Type of water heating serving ozone laundry washing machine	Manufacturer	Model number	Rebate Quantity	Total rebate ²
Ozone System 1	✓ <=100 lbs. ___ >100 < 500 lbs.	1,000 lbs	75 lbs	<input type="checkbox"/> Gas non-condensing storage <input checked="" type="checkbox"/> Gas condensing storage <input type="checkbox"/> Gas tankless <input type="checkbox"/> Gas storage with side-arm boiler	Hamilton Engineering	SOT 990-199v	3	\$7,875

² To calculate the ozone rebate: \$35 x Capacity in pounds of washing machine served by ozone generator x quantity of machines rebated = total rebate

Example: \$35 x 75 lbs x 3 = \$7,875
