

Lighting Efficiency

(For all customer peak demands)

Opportunity ID: _____

Lighting New Construction Rebate Application

Business customer information

Company name _____ Date submitted _____

Installation address _____ City _____ State _____ ZIP _____

Mailing address _____ City _____ State _____ ZIP _____
(For rebate if different from installation address)

Contact name (print) _____ Phone _____ Email _____

Check this box if you do not want to receive emails from Xcel Energy regarding our programs and services.

Xcel Energy electric premises number _____

I verify the information on this application is correct and request consideration for participation in this program.

Customer signature _____ Date _____

Customer hereby certifies that: 1. the customer, and not Xcel Energy is solely responsible for the accuracy of the information contained in this application; 2. all installation is complete and operational prior to submitting rebate; and 3. all rules of this Xcel Energy program have been followed. Further, the customer acknowledges that participation in this rebate program shall impose no liability on Xcel Energy. In particular, Xcel Energy shall not be liable for the work performed by the customer's engineer, contractor or vendor.

Xcel Energy account manager _____ Date _____ Email _____@xcelenergy.com

Alternate rebate recipient

Complete this section only if the customer wants the rebate check to go to someone other than the company tied to the account number.

Company name _____

Contact name _____ Phone _____

Address _____ City _____ State _____ ZIP _____

I authorize the above company to receive the rebate check for this project.

Customer signature _____ Date _____

Contractor information

Contractor company name _____ Contractor contact name _____

Contractor address _____ City _____ State _____ ZIP _____

Phone _____ Fax _____ Email _____

Facility characteristics

Is the space air conditioned where the energy-efficient lighting will be installed? Air conditioned Heat only No air conditioning or heat

Please indicate the primary use for this location:

- Office Big box retail/grocery Healthcare office/out-patient Manufacturing
- Restaurant Elementary/secondary school Hospital Warehouse
- Retail College/university Hotel/motel Nighttime exterior
- Parking garage Other/misc. _____

Does the lighting in this facility operate 24 hours a day? Yes No

Is the new lighting required for safety or for code requirements? Yes No

LED rebate worksheet

Interior installations

Prescriptive rebates are available for the interior and specified exterior equipment listed below. Rebates are based on total fixture wattage. If the fixture is within + or - 10% of the rebate wattage category, the fixture can qualify for a prescriptive rebate. If not, then it could be eligible for a custom rebate. If the project does not fit one of the descriptions below, it may still qualify for rebates. **Xcel Energy offers a tiered rebate level for products that are either DesignLights Consortium (DLC) Qualified Product Lists (QPL) or ENERGY STAR®-qualified, and products that are comparable but not DLC or ENERGY STAR qualified. Xcel Energy has added prescriptive rebates for LED lighting fixtures and lamps that are not DLC or ENERGY STAR qualified. The rebate amounts for these products will be equal to 75% of the rebate amount that we offer for comparable LED products that are DLC- or ENERGY STAR qualified. These new tiered rebates are available starting November 1, 2017. Invoices must be dated on or after November 1, 2017 to earn the non-DLC and non-ENERGY STAR reduced rebate amount.** Refer to the LED Rebate Guide to see which DLC eligible products are within each category. Please contact an Xcel Energy account manager or call our Business Solutions Center at 855.839.8862 for custom lighting project review prior to beginning the project.

New Equipment	Specifications	Non-ENERGY STAR* rebate/unit	ENERGY STAR rebate/unit	Qty. =	Rebate
LED downlight fixtures Rebates are available for new LED downlight fixtures. Non-ENERGY STAR products must meet the ENERGY STAR product eligibility category definition, "Downlight" (recessed, surface mount or pendant). Rebates are based on total new fixture wattage.					
8W–25W	ENERGY STAR-qualified commercial LED downlight luminaires required Wattage per fixture _____	\$18.75/fixture	\$25/fixture		
26W–50W	ENERGY STAR-qualified commercial LED downlight luminaires required Wattage per fixture _____	\$30/fixture	\$40/fixture		
LED screw-in or pin-based lamps and LED retrofit kits for downlights					
A-lamp, PAR, BR, R, MR, Decorative lamps	Select screw-in and pin-based LED lamps and LED downlight solid state retrofit kits are eligible for instant rebates at time of purchase from participating distributors. For more information, visit xcelenergy.com/LightingEfficiency , or visit businessledinstantrebate.com/Locator/Distributors to find a distributor.				
LED retrofit kit for downlights					

New Equipment	Specifications	Non-DLC* rebate	DLC rebate/ unit	Qty. =	Rebate
Refrigerated LED case lighting Rebates are available for new five to six foot LED cooler or freezer case door strip lighting. Non-DLC products must meet the DLC product eligibility category definition, "Vertical Refrigerated Case Luminaires." Rebates are per door, not per lamp. Linear LED tube lights do not qualify for this rebate, but can be considered under the Custom Efficiency program. Category covers only complete luminaires, with all necessary components.					
5- or 6-foot doors	Number of cooler doors _____ Number of freezer doors _____ Wattage/door _____	\$26.25/door	\$35/door		

New Equipment	Specifications	Non-DLC* rebate	DLC rebate/ unit	Qty. =	Rebate
LED high/low bay lighting fixtures Rebates are available for new LED high/low bay lighting. Non-DLC products must meet the DLC product eligibility category definition, "High-Bay Luminaires/High-Bay Aisle Luminaires/Low-Bay Luminaires for Commercial and Industrial Buildings." If wattage is in question, please reference the DLC listed wattage. Strip, Wrap, or fixtures classified as linear ambient, do not qualify for this rebate but can be evaluated through Custom Efficiency. Rebates are based on total new fixture wattage.					
95W–189W	LED high/low bay wattage per fixture _____	\$93.75/fixture	\$125/fixture		
190W–290W		\$105/fixture	\$140/fixture		
291W–464W		\$123.75/fixture	\$165/fixture		
465W–625W		\$131.25/fixture	\$175/fixture		

New Equipment	Specifications	Non-DLC* rebate	DLC rebate/ unit	Qty. =	Rebate
LED troffer fixtures Rebates are new LED troffer fixtures or retrofit kits. Non-DLC products must meet the DLC product eligibility category definitions, "1x4, 2x2, and 2x4 Luminaires for Ambient Lighting of Interior Commercial Spaces". Linear ambient (or "strip") fixtures are not eligible in this category and should be submitted through the Custom Efficiency program. Rebates are based on total new fixture wattage.					
		For invoices dated on or before August 31st, 2018			
2x4, 30W–90W	LED troffer wattage per fixture _____	\$37.50/fixture	\$50/fixture		
2x2, 20W–55W					
1x4, 19W–77W					
		For invoices dated on or after September 1, 2018			
10–100W	LED troffer wattage per fixture _____ Fixture lumens _____ (Fixture lumens field is required for invoices dated on or after September 1, 2018)	\$22.50/fixture	\$30/fixture		

Exterior installations

New Equipment	Specifications	Non-DLC* rebate	DLC rebate/unit	Qty. =	Rebate
---------------	----------------	-----------------	-----------------	--------	--------

LED wall pack fixtures – exterior and parking garage installations
 Rebates are available for new LED Wall Pack fixtures that are rated for exterior use. Non-DLC products must meet the DLC product eligibility category definition, **“Outdoor Wall-Mounted Area Luminaires.”** Rebates are based on total new fixture wattage.

10W–25W	LED wall pack fixtures wattage per fixture _____ Does not include parking garage ceiling fixtures.	\$11.25/fixture	\$15/fixture		
25W–60W		\$22.50/fixture	\$30/fixture		
61W–150W		\$37.50/fixture	\$50/fixture		

LED canopy fixtures
 Rebates are available for new LED canopy fixtures that are rated for exterior use. Non-DLC products must meet the DLC product eligibility category definition, **“Fuel Pump Canopy Luminaires.”** Equipment must be hard-wired and is not limited to gas stations installations. Rebates are based on total new fixture wattage. Downlight fixtures do not qualify.

25W–60W	LED canopy or LED fixtures (fixtures must be rated for exterior use) Wattage per fixture _____	\$15/fixture	\$20/fixture		
61W–150W		\$18.75/fixture	\$25/fixture		

LED parking garage fixtures
 Rebates are available for new LED parking garage fixtures that are rated for exterior use. Non-DLC products must meet the DLC product eligibility category definition, **“Parking Garage Luminaires.”** Eligible parking garage structures need to be either underground or semi-enclosed above ground. **The lighting within the garage must operate 24 hours a day.** Rebates are based on total new fixture wattage.

90W–119W		\$30/fixture	\$40/fixture		
120W–140W		\$37.50/fixture	\$50/fixture		
141W–199W		\$45/fixture	\$60/fixture		
200W–550W		\$67.50/fixture	\$90/fixture		

New Equipment	Non-DLC* rebate/unit	DLC rebate/unit	Non-DLC* rebate/unit	DLC rebate/unit	Qty. =	Rebate
---------------	----------------------	-----------------	----------------------	-----------------	--------	--------

LED street lighting fixtures
 Rebates are available for new LED street lighting fixtures. Non-DLC products must meet the DLC product eligibility category definition, **“Outdoor Pole/Arm-Mounted Area and Roadway Luminaire”** or **“Bollard.”** Rebates are based on total new fixture wattage.

		For invoices dated on or before August 31, 2018	For invoices dated on or after September 1, 2018		
55W –79W	LED street lighting wattage per fixture _____	\$18.75/fixture	\$25/fixture	\$18.75/fixture	\$25/fixture
80W–109W		\$18.75/fixture	\$25/fixture	\$18.75/fixture	\$25/fixture
110W–139W		\$37.50/fixture	\$50/fixture	\$30/fixture	\$40/fixture
140W–209W		\$56.25/fixture	\$75/fixture	\$37.50/fixture	\$50/fixture

Subtotal for LED rebates

Total rebate

*To qualify for a rebate, LED products must either be found on or comparable to the DesignLights Consortium’s (DLC) Qualified Product and/or ENERGY STAR lists. The DLC QPL is available at designlights.org/QPL. The DLC establishes specifications for high-efficiency, high-quality commercial lighting solutions and maintains listings of qualified products.

How to apply

1. Rebate application

Complete the rebate application. All information needs to be supplied before a rebate check can be issued.

2. Itemized invoice

Include detailed installation invoice that includes:

- Invoice number and date
- Customer premises number or installation address
- Manufacturer names and model numbers for installed equipment
- Equipment quantities
- Equipment cost per unit
- Labor cost listed separately from equipment costs. If equipment was self installed, please include a labor cost based on the install time and rate of pay of the installer. Please reference Example A for further clarification.

3. Specifications (if applicable)

Xcel Energy offers a tiered rebate level for products that are either ENERGY STAR or DesignLights Consortium (DLC) Qualified Product Lists (QPL) qualified and products that are comparable but not DLC or ENERGY STAR qualified. Because LED products have become more prevalent and the overall quality has improved, Xcel Energy has added prescriptive rebates for LED lighting fixtures and lamps that are not DLC or ENERGY STAR qualified. The rebate amounts for these products will be equal to 75% of the rebate amount that we offer for comparable LED products that are DLC- or ENERGY STAR qualified. These new tiered rebates are available starting November 1, 2017. Invoices must be dated on or after November 1, 2017 to earn the non-DLC and non-ENERGY STAR reduced rebate amount. Include a screenshot of the product's listing on the applicable website showing details.

ENERGY STAR and DesignLights Consortium Qualified Product Lists

The DLC promotes quality, performance and energy efficient commercial sector lighting solutions through collaboration among its federal, regional, state, utility, and energy efficiency program members; luminaire manufacturers; lighting designers and other industry stakeholders throughout the U.S. Visit designlights.org/QPL to search for qualified commercial products. **For the technical requirements to be listed on the DLC QPL, please visit this website: designlights.org.**

ENERGY STAR promotes energy savings, highest quality of products, reduced maintenance costs, cooling costs, and guaranteed minimum three-year warranty.

Visit energystar.gov/products to search for qualified commercial products.

Please email forms to: energyefficiency@xcelenergy.com (preferred), or fax to 800.311.0050, or mail to: Xcel Energy, Energy Efficiency Specialists, P.O. Box 8, Eau Claire, WI 54702.

Rules and requirements

Xcel Energy provides energy efficiency rebates for the purchase and installation of qualifying interior and exterior lighting equipment in your new building, new addition to an existing building, or major renovation of an existing building. Rebates are based on total fixture wattage. If fixture is within + or -10% of the rebate wattage category, the fixture can qualify for a prescriptive rebate. If not, then it could be eligible for a custom rebate. Additional lighting rebates, not listed on this application, may be available through our Custom Efficiency program which requires preapproval prior to project initiation and purchase of equipment. Please contact an Xcel Energy representative or the Business Solutions Center at 855.839.8862 for Custom Lighting project review prior to beginning the project.

Customer qualifications

This program applies to customers with a valid Xcel Energy commercial account in our Colorado electric service territory. Check xcelenergy.com to verify eligibility. Residential customers—please contact Xcel Energy at 800.895.4999 to learn about residential energy efficiency programs.

Eligibility requirements

- Rebate items must be installed on the Xcel Energy electric account listed on the application.
- All equipment must be new; used or rebuilt equipment is not eligible for a rebate.
- Equipment must meet specification requirements and be purchased and operating prior to submitting an application for a rebate.
- Rebates cannot exceed 60 percent of the project cost (including equipment and labor). The minimum rebate is \$5.
- A signed application and detailed installation invoice(s) must be submitted to Xcel Energy **within 24 months of the invoice date for invoices dated on or after September 1, 2018. For invoices dated on or before August 31, 2018 a signed application and detailed installation invoice(s) must be submitted to Xcel Energy within 12 months of the invoice date.** Invoice(s) submitted must include itemized quantity, price, manufacturer's make and model numbers, and product codes for each material item and original equipment manufacturer (OEM) specification sheets. Please speak with an account manager or call our Business Solutions Center for additional date restriction details.
- Xcel Energy is not responsible for any lost, late, stolen, ineligible, illegible, misdirected or postage-due mail. All completed submissions become the property of Xcel Energy and will not be returned. Warning: Fraudulent submission of forms may result in federal prosecution for mail fraud under 18 USC section 1341, 1342.
- Once completed paperwork is submitted, incentive payments are usually made in six to eight weeks. Xcel Energy will issue rebates in the form of checks, not utility bill credits.
- Equipment must meet the technical requirements listed in this application form. Xcel Energy reserves the right to withhold payment for products that do not meet the requirements.
- Xcel Energy reserves the right to inspect customer facility(ies) for installation of materials listed on this rebate application and will need access to survey the installed project. If the inspection finds that the project does not comply with program rules and standards, any rebate received must be returned to Xcel Energy.
- Xcel Energy's conservation rebate programs are subject to 60 days notice of cancellation. The customer and contractor are responsible for checking with the Business Solutions Center at 855.839.8862 to ask whether or not the program is still in effect and to verify program parameters.
- Xcel Energy reserves the right to publicize participation in this program, unless specifically requested otherwise.
- Xcel Energy reserves the right to refuse payment and participation if the customer or contractor violates program rules and procedures. Xcel Energy is not liable for rebates promised to customers as a result of a contractor misrepresenting the program.
- Xcel Energy recommends Illuminating Engineering Society (IES) light levels.
- Purchases made from a participating retail location do not qualify for a Lighting Efficiency Rebate. Find the list of participating retailers at xcelenergy.com/BulbFinder.

Warranty information

Xcel Energy:

- a. Does not endorse any particular manufacturer, product or system design by offering these rebates;
- b. Will not be responsible for any tax liability imposed on the customer as a result of the payment of rebates;
- c. Does not expressly or implicitly warrant the performance of installed equipment (contact your contractor for detailed equipment warranties);
- d. Is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
- e. Is not liable for any damage caused by the operation or malfunction of the installed equipment; and
- f. Does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program.
