Xcel Energy

Docket No.: E002/GR-13-868

Response To: Department of Commerce Information Request No. 1173

Requestor: Angela Byrne, Nancy Campbell, and Dale Lusti

Date Received: March 20, 2014

---

Question:

Subject: Donations

Reference: Heuer Direct, Pages 124-125, Adjustment A18

Volume 4, Tab A18, Workpaper A18-3

- A. Please reproduce the workpaper A18-3 for actual donations for 2011, 2012 and 2013, test year requested and authorized donations for the 2011 and 2013 test years.
- B. Regarding the Corporate Contributions and Focus Area Grants categories on the A18-3 workpaper, please answer the following questions:
1. What is the general purpose of these two categories of contributions?
  2. What types of organizations are typical recipients of the contributions in each category?

Response:

- A. Attachment A to this response provides information for actual donations for 2012, 2013 and 2014, and requested and authorized donations for the test year 2016. The Company provided actual donations for 2011 and 2012, and requested and authorized donations for the test years 2011 and 2013 in its response to Information Request No. 1173 in Docket E002/GR-13-868. This information is similar to what is provided in tab A-9, included in Volume 4B Test Year Workpapers--Adjustments of the rate case application.

## B-1. *Corporate Contributions*

The Corporate Contributions category is established for amounts set aside for donations that either do not meet the guidelines of our Focus Area Grants discussed below or are outside the focus area schedule, such as donations for disaster relief.

Because we cannot predict if and when a disaster will strike one of our communities, these dollars are allocated across all of Xcel Energy Inc. operating companies in a budget period. Such out-of-cycle donations are those we need to make but which are not on our regular funding cycles, or are deemed to be of benefit to our communities but also fall outside our guidelines for Focus Area Grants.

### *Focus Area Grants*

Through our Focus Area Grants, we support many nonprofit 501(c)(3) organizations within our Minnesota service territory that provide or support:

- 1) K-through secondary education, including math, science, education;
- 2) job training and placement;
- 3) habitat improvement and resource conservation;
- and 4) access to arts and culture performances and facilities.

We have two funding cycles each year, which typically open in January and March. We invite organizations to apply; most of these are previous partners, with about 20 percent being potential new partners. Organizations submit applications describing what they would accomplish with our potential funding. Xcel Energy staff verifies their nonprofit status and reviews the detailed financial information sent from the nonprofit.

Our communities count on us to not only produce energy responsibly, but to partner with and support programs and organizations that directly impact our communities' economic prosperity and ultimately, the quality of life within our service territory. Please see Attachment B to this response for additional information regarding our Focus Area Grants. This fact sheet is also available on our public website at:
