

Comment – this version is intended for facilities over 1 MW **and/or** requires dedicated construction on our part.

Generator Soft Load Transfer Interconnection Agreement

This GENERATOR SOFT LOAD TRANSFER INTERCONNECTION AGREEMENT (“Agreement”) is entered into by and between Public Service Company of Colorado, d/b/a Xcel Energy, a Colorado corporation, having a mailing address of P.O. Box 840, Denver, Colorado, 80201, hereinafter referred to as “Public Service,” and <customer name>, having a mailing address of <customer mailing address>, hereinafter referred to as “Customer.” The Customer and Public Service are sometimes also referred to in this Agreement jointly as “Parties” or individually as “Party.”

In consideration of the premises and of the mutual covenants and agreements hereinafter set forth, the Parties agree as follows:

I. SCOPE AND PURPOSE

- A) Establishment of Point of Common Coupling. This Agreement is intended to provide for the Customer to interconnect and operate a Generation System in parallel with the Public Service electric distribution system for a duration of less than 2 minutes at <premise address>, as more specifically identified in Exhibit C and shown in the Exhibit A one-line diagram.
- B) This Agreement contains the terms and conditions under which the Customer may transfer the Customer’s load from and to the Public Service electric distribution system in a closed or soft transfer manner for less than two minutes duration in parallel per transfer.
- C) This Agreement does not authorize the Customer to export power.
- D) This Agreement does not cover FERC jurisdictional generating system installations.
- E) The Technical Requirements for interconnection are set forth in a separate Technical Requirements document, entitled “Safety, Interference and Interconnection Guidelines for Cogenerators, Small Power Producers, and Customer-Owned Generation,” dated March 26, 2010, a copy of which has been made available to the Customer and the receipt of which Customer hereby acknowledges. The Technical Requirements, as may be modified from time to time, are hereby incorporated and made part of this Agreement by this reference.

II. DEFINITIONS

- A) “Agreement” – this Generator Soft Load Transfer Interconnection Agreement.
- B) “Area EPS” - an electric power system (EPS) that serves Local EPSs. Note: Typically, an Area EPS has primary access to public rights-of-way, priority crossing of property boundaries, etc.
- C) “Commission” - the Public Utilities Commission of the State of Colorado.
- D) “Customer” – the party defined as the Customer in the first paragraph of this Agreement.

- E) “Dedicated Facilities” - the facilities and equipment that are constructed and/or installed with respect to the interconnection of the Generation System and which are not used to serve any other Public Service customers, as more specifically described on Exhibit B attached hereto and made a part hereof.
- F) “Electric Tariffs” - Public Service’s electric tariffs as in effect and on file with the Commission from time to time.
- G) “EPS” (Electric Power System) - facilities that deliver electric power to a load. Note: This may include generation units.
- H) “Extended Parallel” - a Generation System which is designed to remain connected with Public Service for periods in excess of two minutes.
- I) “Generator(s)” - any device or combination of devices producing electrical energy, i.e., rotating generators driven by wind, steam turbines, internal combustion engines, hydraulic turbines, solar, fuel cells, etc.; or any other electric producing device or devices, including energy storage technologies.
- J) “Generation System” – the Customer’s backup Generator(s) and soft load transfer system, controls, relays, switches, breakers, transformers, inverters, and associated wiring and cables, up to the Point of Common Coupling.
- K) “Local EPS” - an EPS contained entirely within a single premise or group of premises.
- L) “Nameplate Capacity” - the total AC nameplate capacity rating of all the Generator(s) included in the Generation System.
- M) “Point of Common Coupling” - the point where the Local EPS is connected to Public Service, as shown on Exhibit A hereto.
- N) “Public Service Operator” - the distribution dispatch personnel or group that operates the Public Service Area EPS.
- O) “Soft Load Transfer” – The process of paralleling the Customer’s backup Generator(s) with Public Service for a limited duration for the purpose of transferring the Customer’s load without an outage or interruption.
- P) “Technical Requirements” - standards and requirements set forth in the document entitled “Safety, Interference and Interconnection Guidelines for Cogenerators, Small Power Producers, and Customer-Owned Generation” (March 26, 2010), as may be modified from time to time.

III. DESCRIPTION OF INTERCONNECTION CUSTOMER’S GENERATION SYSTEM

- A) A general description of the Generation System, including a single-line diagram showing the general arrangement of how the Customer’s Generation System is interconnected with Public Service’s electric distribution system, is attached to and made part of this Agreement as Exhibit A. Packaged Systems certified under IEEE Standard 1547.1 and UL Standard 1741 will not

require a relaying and metering one-line diagram. The single-line diagram includes the following:

- 1) Point of Common Coupling
- 2) Location of Meter(s)
- 3) Ownership of the equipment
- 4) Generation System total Nameplate Capacity

IV. RESPONSIBILITIES OF THE PARTIES

- A) The Parties shall perform all of their respective obligations under this Agreement in accordance with all applicable laws and regulations, operating requirements, and good utility practices.
- B) Customer shall construct, operate, and maintain the Generation System in accordance with the applicable manufacturer's recommended maintenance schedule, the Technical Requirements, and in accordance with this Agreement. Customer shall receive service from Public Service, shall be the operator of the on-site backup Generator(s), and shall be responsible for meeting all of the, obligations, responsibilities and requirements of Customer pursuant to this Agreement.
- C) Public Service shall carry out the construction of the Dedicated Facilities, if required, in a good and workmanlike manner, in accordance with standard design and engineering practices.

V. CONSTRUCTION

- A) The Parties agree to cause their facilities or systems to be constructed in accordance with the laws of the State of Colorado and to meet or exceed applicable codes and standards provided by the NESC (National Electrical Safety Code), ANSI (American National Standards Institute), IEEE (Institute of Electrical and Electronic Engineers), NEC (National Electrical Code), UL (Underwriter's Laboratory), Technical Requirements, applicable local building codes, and other applicable ordinances in effect at the time of the installation of the Generation System.

- B) Charges and Payments

The Customer is responsible and shall pay and reimburse Public Service for any and all of the actual costs incurred by Public Service related to this Agreement and/or the interconnection of the Generation System with the Public Service electric distribution system at the Point of Common Coupling, including, but not limited to the actual cost of the Dedicated Facilities, the actual cost of any utility system mitigations necessary to permit operation of the Customer's Generation Facility in parallel with Public Service, the actual cost of any labor by or on behalf of Public Service for installation, coordination, commissioning, installation testing and engineering review of the interconnection of the Generation System, and the actual cost of any interconnection design. Estimates of these costs to be incurred by Public Service are set forth in Exhibit B. The estimated costs set forth in Exhibit B have been developed for budgeting purposes and may be greater or less than the actual costs required to be reimbursed by the Customer hereunder. All costs for which the Customer is responsible hereunder shall be

reasonable under the circumstances of the particular design and construction of the interconnection.

1) Dedicated Facilities

- a) During the term of this Agreement, Public Service shall design, construct, and install the Dedicated Facilities in order to interconnect the Generation System with the Public Service electric distribution system at the Point of Common Coupling.
- b) Once installed, the Dedicated Facilities shall be owned and operated by Public Service and all costs associated with operating and maintaining the Dedicated Facilities thereafter shall be the responsibility of Public Service, unless otherwise agreed.
- c) Upon execution of this Agreement, Public Service shall be authorized to begin the design and construction and to procure the necessary facilities and equipment to complete the installation of the Dedicated Facilities.

2) Payments. The Customer shall pay Public Service for the cost of the Dedicated Facilities as follows.

- a) All of the estimated costs, as set forth in Exhibit B, shall be due prior to initial enabling of the soft load transition operating mode with Public Service.
- b) The remainder of actual costs, incurred by the Public Service, shall be due within thirty (30) days from the date the bill is mailed by Public Service after project completion. If the Customer does not make payment in full within that time, the unpaid balance shall bear interest at the lowest of: (i) the rate of one and one half percent (1.5%) per month, or (ii) the highest rate permitted by law. In the event the actual costs are less than the estimated costs paid by Customer, Public Service shall refund the difference to the Customer within sixty (60) days of project completion.

VI. DOCUMENTS INCLUDED WITH THIS AGREEMENT.

- A) This Agreement includes the following Exhibits, which are specifically incorporated herein and made part of this Agreement by this reference:
- 1) Exhibit A – Description of Generation System and single-line diagram. This diagram shows all major equipment, including Point of Common Coupling, ownership of equipment, and the location of metering.
 - 2) Exhibit B – Estimated engineering, installation, equipment removal, commissioning, and testing costs payable by the Customer. Included in this listing shall be the description and estimated costs for the required Dedicated Facilities and any utility system mitigations being installed by Public Service for the interconnection of the Generation System and a description and estimate for the final acceptance testing work to be done by Public Service.
 - 3) Exhibit C – Engineering Data Submittal. To be included when needed.

- 4) Exhibit D – Operating Agreement. To be included when needed. The Operating Agreement details special operation requirements that are a condition of soft load transfer operation.

VII. TERMS AND TERMINATION

- A) This Agreement shall become effective as of the date when both the Customer and Public Service have executed this Agreement. The Agreement shall continue in full force and effect until the earliest date that one of the following events occurs:
 - 1) The Parties agree in writing to terminate the Agreement; or
 - 2) The Customer may terminate this Agreement at any time, by written notice to Public Service, prior to witnessing the completion of the final acceptance testing of the Generation System by Public Service; provided however, upon such termination, the Customer shall continue to be responsible, and shall pay and reimburse Public Service, for all costs incurred by Public Service as provided in VII.C) below. as provided for in Section V.B. above. Upon receipt of a termination notice, Public Service shall take reasonable steps to minimize additional costs to the Customer, where reasonably possible.
 - 3) Once the Generation System is operational, the Customer may terminate this Agreement after thirty (30) days written notice to Public Service, so long as all payments due to Public Service have been paid; or
 - 4) Public Service may terminate this Agreement:
 - a) After thirty (30) days written notice to the Customer if:
 - i. The Customer fails to interconnect or operate the Generation System in accordance with the terms of this Agreement;
 - ii. The Customer fails to take all corrective actions specified in Public Service's written notice that the Generation System is out of compliance with the terms of Public Service's tariffs or this Agreement, within the time frame set forth in such notice or in this Agreement, as the case may be, or within 10 days if no time frame is set forth in such notice or in this Agreement;
 - iii. The Customer fails to complete Public Service's final acceptance testing of the Generation System within 24 months of the date of this Agreement;
- B) This Agreement shall automatically terminate upon the removal of the Generation System or permanent disabling of the soft load transfer capability, or the permanent cessation of operations by Customer behind the Point of Common Coupling.
- C) Upon termination of this Agreement, the Generation System shall be disconnected from Public Service's electric distribution system or the soft load transfer capability *shall* be permanently disabled. The termination of this Agreement shall not relieve either Party of its liabilities and obligations, owed or continuing, at the time of the termination. Upon termination of this Agreement for any reason, the Customer, to the extent not

already paid at the time of such termination, shall continue to be responsible, and shall pay and reimburse Public Service, for all actual costs incurred by Public Service, including, without limitation, those described in Section V.B. above, and if the Agreement is terminated prior to the completion of the final acceptance testing of the Generation System by Public Service, the Customer shall also be responsible, and shall pay and reimburse Public Service, for any and all additional costs to remove and/or complete the installation of all or some portion of the Dedicated Facilities and any utility system mitigations following termination. Upon receipt of a termination notice, Public Service shall take reasonable steps to minimize additional costs to the Customer, where reasonably possible. This provision shall survive termination of this Agreement.

VIII. OPERATIONAL ISSUES

Each Party will, at its own cost and expense, operate, maintain, repair, and inspect, and shall be fully responsible for, the facilities that it now or hereafter may own, unless otherwise specified.

- A) Technical Standards; Operation and Maintenance: The Generation System shall be installed, operated and maintained by the Customer consistent with the requirements of this Agreement; the Technical Requirements; the applicable requirements located in the National Electrical Code (NEC); the applicable standards published by the American National Standards Institute (ANSI) and the Institute of Electrical and Electronic Engineers (IEEE); applicable local building codes, and other applicable ordinances in effect during the installation and operation of the Generation System and related facilities.
- B) Right of Access: At all times, Public Service's personnel shall have access as necessary to Customer's premises and property for Public Service to operate, maintain, inspect, test, repair or replace its equipment and facilities for the purposes of this Agreement.
- C) Electric Service: This Agreement does not govern the provision of electric service by Public Service to supply the electrical requirements of the Local EPS. Any such electric service to be supplied to the Customer's Local EPS by Public Service shall be exclusively in accordance with the Electric Tariffs and rate schedules applicable to the Customer's class of service there under, as in effect from time to time.
- D) Disconnection of Unit: Public Service may require disabling of soft load transfer operations as reasonably necessary in the event of termination of this Agreement, non-compliance by the Customer with the terms of this Agreement, system emergency, imminent danger to the public or Public Service personnel, and routine maintenance, repairs, and modifications to the Public Service system. When reasonably possible, Public Service shall provide prior notice to the Customer explaining the reason. Public Service shall have no liability for any loss of sales or other damages, including any consequential damages for the loss of business opportunity, profits, or other losses, regardless of whether such damages were foreseeable, for disabling the soft transfer mode in accordance with this Agreement.
- E) Modifications to the Generation System: The Customer shall notify the Public Service Operator, in writing, of plans for any modifications to the Generation System interconnection equipment,

including all information needed by Public Service, as part of the review described in this paragraph, at least twenty (20) business days prior to undertaking such modification(s). Modifications to any of the interconnection equipment, including all interconnection required protective systems, the generation control systems, the transfer switches/breakers, interconnection protection VT's & CT's, and Generation System capacity, shall be included in the notification to Public Service. The Customer agrees not to commence installation of any modifications to the Generating System until Public Service has approved the modification, in writing, which approval shall not be unreasonably withheld. Public Service shall have a minimum of five (5) business days to review and respond to the planned modification. Public Service shall not take longer than a maximum of ten (10) business days to review and respond to the modification after the receipt of the information required to review the modifications. A major upgrade or expansion of the Generation System does not qualify for this provision. Such changes shall be reviewed through a formal interconnection application.

IX. LIMITATION OF LIABILITY

- A) Each Party shall at all times indemnify, defend, and save the other Party harmless from any and all damages, losses, claims, including claims and actions relating to injury or death of any person or damage to property, costs and expenses, reasonable attorneys' fees and court costs, arising out of or resulting from the Party's performance of its obligations under this agreement, except to the extent that such damages, losses or claims were caused by the negligence or intentional acts of the other Party.
- B) Any liability of either Party to the other for failure to perform its obligations under this Agreement shall be limited to the amount of direct damage actually incurred. In no event shall either Party be liable to the other Party for any punitive, incidental, indirect, special, or consequential damages of any kind whatsoever, including for loss of business opportunity or profits, regardless of whether such damages were foreseen.
- C) Notwithstanding any other provision in this Agreement, with respect to Public Service's provision of electric service to any customer including the Customer, Public Service's liability to such customer shall be limited as set forth in Public Service's tariffs and terms and conditions for electric service, and shall not be modified or in any manner affected by the terms of this Agreement.

X. DISPUTE RESOLUTION

- A) Each Party agrees to attempt to resolve all disputes arising hereunder promptly, equitably, and in a good faith manner.
- B) In the event a dispute arises under this Agreement, and if the Parties cannot resolve it within five (5) days after written notice of the dispute to the other Party, the Parties may mutually agree to submit the dispute to mediation by a mutually acceptable mediator or dispute resolution service, in a mutually convenient location in the State of Colorado. Each Party will be responsible for one-half of the cost paid to neutral third-parties.
- C) The Parties agree to participate in good faith in the mediation or resolution process. If the Parties are not successful in resolving their dispute through mediation or the dispute resolution

process, then the Parties may refer the dispute for resolution to the Commission, which shall maintain continuing jurisdiction over this Agreement.

XI. INSURANCE

- A) At a minimum, in connection with the Customer's performance of its duties and obligations under this Agreement, the Customer shall maintain, during the term of the Agreement, general liability insurance with a combined single limit of not less than
- 1) Two million dollars (\$2,000,000) or greater, as mutually agreed to by the Parties, for each occurrence if the Gross AC Nameplate Rating of the Generation System is greater than 2 MW.
 - 2) Two million dollars (\$2,000,000) for each occurrence if the Gross AC Nameplate Rating of the Generation System is greater than 500 kW up to and including 2 MW.
 - 3) One million dollars (\$1,000,000) for each occurrence if the Gross AC Nameplate Rating of the Generation System is greater than 10 kW up to and including 500 kW.
 - 4) Three hundred thousand dollars (\$300,000) for each occurrence if the Gross AC Nameplate Rating of the Generation System is 10 kW or less.
- B) Such general liability insurance shall include coverage against claims for damages resulting from (i) bodily injury, including wrongful death; and (ii) property damage arising out of the Customer's ownership and/or operating of the Generation System under this Agreement.
- C) The general liability insurance required by Section XI.A shall, by endorsement to the policy or policies: (a) include Public Service as an additional insured for systems over 500 kW; (b) provide that Public Service shall not by reason of its inclusion as an additional insured incur liability to the insurance carrier for the payment of premium for such insurance; and (c) provide for thirty (30) calendar days' written notice to Public Service prior to cancellation, termination, alteration, or material change of such insurance.
- a. Evidence of the insurance required in Section XI.A shall state that coverage provided is primary and is not excess to or contributing with any insurance or self-insurance maintained by Public Service.
 - b. If the Customer is self-insured with an established record of self-insurance, the Customer may comply with the following in lieu of Section XI.A – C:
 - i. Customer shall provide to Public Service, at least thirty (30) days prior to the date of initial operation, evidence of an acceptable plan to self-insure to a level of coverage equivalent to that required under section XI.A.

- ii. If Customer ceases to self-insure to the level required hereunder, or if the Customer is unable to provide continuing evidence of its ability to self-insure, the Customer agrees to immediately obtain the coverage required under Section XI.A.
- D) The Customer shall provide Public Service a certificate of insurance evidencing the requisite coverage and provisions prior to the interconnection of the Generation System. After interconnection, Public Service may periodically request proof of current insurance coverage in order to verify compliance with the requirements of this Section XI. Upon receipt of any such request, the Customer shall provide a certificate of insurance evidencing the requisite coverage and provisions.
- E) Failure of the Customer or Public Service to enforce the minimum levels of insurance does not relieve the Customer from maintaining such levels of insurance or relieve the Customer of any liability.
- F) All insurance certificates, statements of self-insurance, endorsements, cancellations, terminations, alterations, and material changes of such insurance shall be issued and submitted to Public Service Company to the following address:
- G) *Public Service, Manager Area Engineering, 1123 W. 3rd Avenue, Denver, CO 80223* Notwithstanding the foregoing, in the event the Customer is a governmental entity, then the insurance obligations under this Section XI shall apply only to the extent the Customer is permitted by applicable law to undertake such insurance obligation or obligations.

XII. MISCELLANEOUS

A) FORCE MAJEURE

- 1) An event of Force Majeure means any act of God, act of the public enemy, war, insurrection, riot, fire, storm or flood, explosion, breakage or accident to machinery or equipment, any curtailment, order, regulation, or restriction imposed by governmental, military or lawfully established civilian authorities, or any other cause beyond a Party's control. An event of Force Majeure does not include an act of negligence or intentional wrongdoing.
- 2) If, because of Force Majeure, either Party is reasonably prevented or delayed from performing any of its obligations under this Agreement (other than an obligation to pay), and if the Party experiencing such Force Majeure gives the other Party prompt written notice of such Force Majeure, then the obligations of the Parties shall be excused to the extent the Party experiencing the Force Majeure is reasonably prevented or delayed from performing its obligations. The notifying Party shall use commercially reasonable efforts to remedy the effects of the Force Majeure and resume its performance hereunder with all reasonable dispatch and minimum delay; provided, however, notwithstanding any other provision set forth herein, neither Party shall be required to make significant expenditures or settle or otherwise compromise a labor dispute to eliminate a labor related Force Majeure event.

B) NOTICES

1) Any written notice, demand, or request required or authorized in connection with this Agreement (“Notice”) shall be deemed properly given if delivered in person or sent by first class mail, postage prepaid, to the person specified below:

a) If to Public Service:

Public Service, Manager Area Engineering, 1123 W. 3rd Avenue, Denver, CO
80223

b) If to Customer:

<customer mailing address>

2) A Party may change its address for notices at any time by providing the other Party written notice of the change, in accordance with this Section.

3) The Parties may also designate operating representatives to conduct the daily communications that may be necessary or convenient for the administration of this Agreement. Such designations, including names, addresses, and phone numbers may be communicated or revised by one Party’s notice to the other Party.

C) ASSIGNMENT

All of the terms, covenants, representations, warranties, and conditions of this Agreement shall be binding upon, and inure to the benefit of and be enforceable by, the Parties hereto and their respective successors, but neither this Agreement nor the rights and obligations of the Customer may be assigned except as provided for in this Section XII.C. In the event the Customer sells, conveys or otherwise transfers ownership or operational control of the Generation System to another entity (“New Owner”), this Agreement may be transferred to such New Owner upon receipt by Public Service of a written document, in a form satisfactory to Public Service, indicating the New Owner’s agreement to comply with all of the terms of this Agreement. The Customer shall not otherwise assign its rights nor delegate its duties under this Agreement without Public Service’s written consent, which shall not be unreasonably withheld. Any assignment or delegation the Customer makes without Public Service’s written consent shall not be valid.

D) NON-WAIVER

None of the provisions of this Agreement shall be considered waived by a Party unless such waiver is given in writing. The failure of a Party to insist in any one or more instances upon strict performance of any of the provisions of this Agreement or to take advantage of any of its rights hereunder shall not be construed as a waiver of any such provisions or the relinquishment of any such rights for the future, but the same shall continue and remain in full force and effect.

E) GOVERNING LAW AND INCLUSION OF PUBLIC SERVICE’S TARIFFS AND RULES.

- 1) This Agreement shall be interpreted, governed, and construed under the laws of the State of Colorado as if executed and to be performed wholly within the State of Colorado without giving effect to choice of law provisions that might apply to the law of a different jurisdiction.
- 2) The provisions of this Agreement shall at all times be subject to the applicable terms and conditions set forth in the Electric Tariffs pertaining to the electric service provided by Public Service, which are hereby incorporated into this Agreement by this reference.
- 3) Notwithstanding any other provisions of this Agreement, Public Service shall have the right to unilaterally file with the Commission, pursuant to the Commission's rules and regulations, an application for change in rates, charges, classification, service, tariff, or rule or any agreement relating thereto.

F) AMENDMENT AND MODIFICATION

This Agreement will not be amended, modified, or supplemented except by a written instrument signed by an authorized representative of each of the Parties hereto.

G) ENTIRE AGREEMENT

This Agreement, including all attachments, exhibits, and appendices, constitutes the entire Agreement between the Parties with regard to the interconnection of the Generation System of the Parties at the Point(s) of Common Coupling expressly provided for in this Agreement and supersedes all prior agreements or understandings, whether verbal or written. It is expressly acknowledged that the Parties may have other agreements covering other services not expressly provided for herein, which agreements are unaffected by this Agreement. Each Party also represents that in entering into this Agreement, it has not relied on the promise, inducement, representation, warranty, agreement, or other statement not set forth in this Agreement or in the incorporated attachments, exhibits, and appendices.

This Agreement may be executed in two or more counterparts, each of which is deemed original but all constitute one and the same instrument. The Parties agree that a facsimile copy of a signature will be deemed original and binding.

H) CONFIDENTIAL INFORMATION

- (1) Confidential information shall mean any confidential and/or proprietary information provided by one Party to the other Party that is clearly marked or otherwise designated "Confidential." All design, operating specifications, and metering data provided by the Customer shall be deemed confidential information regardless of whether it is clearly marked or otherwise designated as such.
- (2) Confidential Information does not include information previously in the public domain, required to be publicly submitted or divulged to or by governmental entities (after notice to the other Party and after such other Party's exhausting any opportunity to oppose such publication or release), or necessary to be divulged in an action to enforce an agreement between the Parties. Each Party receiving Confidential Information shall hold such information in confidence and shall not disclose it to any third party nor to the public without the prior written authorization from the Party providing that information, except to fulfill obligations under agreements between the Parties, or to fulfill legal or

regulatory requirements. Notwithstanding the foregoing, Public Service may disclose Confidential Information to its affiliate, Xcel Energy Services Inc., without prior written authorization from Customer.

- A. Each Party shall employ at least the same standard of care to protect Confidential Information obtained from the other Party as it employs to protect its own Confidential Information.
- B. Each Party is entitled to equitable relief, by injunction or otherwise, to enforce its rights under this provision to prevent the release of Confidential Information without bond or proof of damages, and may seek other remedies available at law or in equity for breach of this provision.

(3) Notwithstanding anything in this article to the contrary, if the Commission, during the course of an investigation or otherwise, requests information from one of the Parties that is otherwise required to be maintained in confidence, the Party shall provide the requested information to the Commission, within the time provided for in the request for information. In providing the information to the Commission, the Party may request that the information be treated as confidential and non-public by the Commission and that the information be withheld from public disclosure. The Party shall notify the other Party when it is notified by the Commission that a request to release Confidential Information has been received by the Commission, at which time either of the Parties may respond before such information would be made public.

I) **NO WARRANTIES**

By undertaking the performance of any of its responsibilities under the terms of this Agreement, including, without limitation, any inspection, acceptance or non-rejection, Public Service does not give and hereby disclaims any warranty, expressed or implied, as to the adequacy, safety, or other characteristics of any structures, equipment, wires, appliances, or devices owned, installed, or maintained by the Customer or leased by the Customer from third parties, including without limitation the Generation System and any structures, equipment, wires, appliances, or devices appurtenant thereto.

J) **NO PARTNERSHIP**

This Agreement shall not be interpreted or construed to create an association, joint venture, agency relationship, or partnership between the Parties or to impose any partnership obligation or partnership liability upon either Party. Neither Party shall have any right, power, or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as or be an agent or representative of, or to otherwise bind, the other Party.

IN WITNESS WHEREOF, the Parties hereto have caused three originals of this Agreement to be executed by their duly authorized representatives. This Agreement is effective as of the last date set forth below.
