Account Number:

**DISCONNECTION NOTICE**  
**And Statement of Customer Rights and Information**

Dear :

Your natural gas and/or electricity will be disconnected if we do not receive payment or if you do not take immediate steps to remedy your past due balance.

You can avoid disconnection by taking one of the following steps:

- Paying your past due amount of \$ by 01/15/2016. Note that this amount **DOES NOT** include your current month's bill.
- Making payment arrangements with us by 01/15/2016.

Please contact us immediately at 1-800-895-4999 if you feel you received this in error, if payment has already been made, to make the required payment or to set payment arrangements.

If your service is disconnected for nonpayment you will have to pay a reconnection charge. Reconnection orders are typically completed the **FOLLOWING BUSINESS DAY** after your reconnection order has been placed. Additional charges, such as a deposit, may also be assessed to your account.

We look forward to working with you to resolve this situation.

Sincerely,

Xcel Energy

GENERAL INFORMATION	
<b>City Fees</b> A fee some cities impose that Xcel Energy collects from customers and pays directly to the city.	<b>Governing Regulatory Agency</b> The Minnesota Public Utilities Commission regulates this utility and is available for mediation. MPUC, 121 7th Place E., Suite 360, St. Paul, MN 55101-2147 - <a href="http://mn.gov/puc/">http://mn.gov/puc/</a> .
<b>Electronic Check Conversion</b> When you pay your bill by check, in most cases Xcel Energy will use your check information to make a one-time electronic debit from your checking account on the day we receive your check. There are no fees for this electronic conversion. In all other cases we will process your check.	<b>Late Payment Charge</b> Xcel Energy will assess a late payment charge on unpaid amounts two working days after the due date. The late payment charge is 1.5% monthly or \$1, whichever is greater. No late payment charge will be assessed if the unpaid amount is less than \$10.
<b>Environmental Information</b> Fuels used to generate electricity have different costs, reliability and air emissions. For more information, contact Xcel Energy at 800.895.4999 or online at <a href="http://xcelenergy.com">xcelenergy.com</a> . You can also contact the Minnesota Department of Commerce at <a href="http://mn.gov/commerce/">http://mn.gov/commerce/</a> or the Minnesota Pollution Control Agency at <a href="http://www.pca.state.mn.us/quick-links/electricity-and-environment">http://www.pca.state.mn.us/quick-links/electricity-and-environment</a> .	<b>Payment Responsibility</b> If the name on the front of your bill is not that of a person or business who has payment responsibility, call Xcel Energy at 800.895.4999.
<b>Estimated Bills</b> Xcel Energy attempts to read meters each month. If no reading is taken, Xcel Energy estimates your month's bill based on your past use.	<b>Further information is available to customers upon request.</b>

ABOUT YOUR ELECTRIC RATES	
<b>Affordability Charge</b> A surcharge to recover the costs of offering bill payment assistance and discount programs for low-income customers.	<b>Meter Reading Information</b> Smart meters track your energy use in 15-minute intervals. Your bill is based on the total kWh you used in each 15-minute interval in the billing period.
<b>Basic Service Charge</b> Fixed monthly charge for certain fixed costs (metering, billing, maintenance, etc.)	<b>Mercury Cost Recovery</b> Minnesota law allows Xcel Energy to recover costs related to reducing Mercury emissions at two of Xcel Energy's fossil fuel power plants.
<b>Conservation Improvement Programs</b> Minnesota law requires Xcel Energy to invest in programs that help customers save energy.	<b>Renewable Development Fund</b> Minnesota law requires Xcel Energy to allocate money to support research and development of renewable energy technologies, grid modernization, and other projects that increase system efficiency.
<b>Decoupling Adjustment</b> A credit or surcharge to residential and non-demand business customers that separates the recovery of fixed costs from sales, adjusted annually based on the average use of each of these two customer classes.	<b>Renewable Energy Standard</b> Minnesota law allows Xcel Energy to recover the costs of new renewable generation.
<b>Demand Charge</b> Charge to commercial and industrial customers for the fixed costs of the electric capacity required to meet the peak electric loads on Xcel Energy's system. The charge, which is adjusted seasonally, applies to the highest 15 minute kW demand during the billing period.	<b>Resource Adjustment</b> This includes costs related to: Conservation Improvement Programs, Mercury Cost Recovery, Renewable Development Fund, Renewable Energy Standard, State Energy Policy, Transmission Cost Recovery.
<b>Energy Charge</b> Charge per kWh of electricity usage to recover the variable costs of producing energy.	<b>State Energy Policy</b> Minnesota law allows Xcel Energy to recover costs related to various energy policies approved by the Legislature.
<b>Fuel Cost Charge</b> Charge per kWh to recover the costs of fuel needed to run Xcel Energy's generating plants, as well as the cost of purchasing energy from other suppliers.	<b>Transmission Cost Recovery</b> Minnesota law allows Xcel Energy to recover costs associated with new investments in the electric transmission system necessary to deliver electric energy to customers.
<b>kWh</b> One kilowatt-hour (kWh) is a unit of electrical usage. One kWh equals 1,000 watts of electricity used for one hour. This is enough electricity to light a 100-watt light bulb for 10 hours.	<b>Windsources®</b> Windsources is an optional program where you choose how much wind energy you would like to support. You can choose a fixed number of Windsources blocks (100 kWh each) or choose a 100% Windsources option.

ABOUT YOUR NATURAL GAS RATES	
<b>Basic Service Charge</b> Monthly charge for certain fixed costs (metering, billing, maintenance, etc.)	<b>Heat Content Adjustment</b> Corrects for variances in the heating capability of natural gas, and the adjustment varies monthly. The higher the heat content, the lower the volume of natural gas needed to provide the same heating.
<b>Charge per therm</b> Charge to recover the cost of natural gas purchases from wholesale suppliers and delivered to Xcel Energy's distribution system via pipeline. This charge is adjusted each month.	<b>New Area Service/Extension Surcharge</b> Monthly charge for extending natural gas service to areas where the cost would otherwise have been prohibitive under Company's present rates and service extension policy.
<b>Conservation Improvement Programs</b> Minnesota law requires Xcel Energy to invest in programs that help customers save energy.	<b>Pressure Correction Adjustment</b> Adjusts for variances in the amount of natural gas measured by different types of meters due to pressure differences in the natural gas delivered to a service.
<b>Distribution Charge</b> Charge per therm that covers only the delivery costs of natural gas to a home or business through our distribution system. It does not include the charges for the natural gas itself.	<b>Resource Adjustment</b> This includes costs related to Conservation Improvement Programs, Gas Utility Infrastructure Costs and State Energy Policy Rider.
<b>Gas Affordability Program</b> A surcharge to recover the costs of offering a low-income customer co-pay program designed to reduce natural gas service disconnections. Billed to all non-interruptible customers.	<b>State Energy Policy</b> Minnesota law allows Xcel Energy to recover costs related to various energy policies approved by the Legislature.
<b>Gas Utility Infrastructure Costs</b> Minnesota law allows Xcel Energy to recover MPUC-approved costs of assessments, modifications, and replacement of natural gas facilities as required to comply with state and federal pipeline safety programs.	<b>Therm</b> A therm is a unit of heating value equal to 100,000 British Thermal Units (BTUs). Since natural gas meters measure the volume of natural gas consumed in cubic feet, the Heat Content Adjustment is used to determine how much heat, in therms, is contained in the volume consumed.
