

Residential Service Rates

ELECTRIC SERVICE

The Public Service Commission of Wisconsin has approved new electric base rates effective Jan. 1, 2018. The 1.35 percent overall electric rate increase is necessary to continue to provide reliable, safe and clean energy. The increase is for infrastructure improvements and operating and maintenance expenses, and includes an update for 2018 fuel and purchased power costs.

A typical residential customer using 750 kilowatt hours a month will see an increase of about \$2.05. Customer bills may vary depending on service schedule and usage characteristics.

Standard Service*		
Customer Charge	Delivery Charge	Energy Charge
Single Phase \$17.00/mo.	\$0.042000/kWh	Summer Rate\$0.083180/kWh
Three Phase \$20.50/mo.		Winter Rate\$0.071650/kWh

	250 Watt\$14.10
	400 Watt\$20.10

NATURAL GAS SERVICE

The Public Service Commission of Wisconsin has approved new natural gas base rates effective Jan. 1, 2018. Your bill shows separate charges for distribution (what we charge for delivering natural gas) and gas supply (what we pay to acquire natural gas). The Gas Supply Charge is adjusted monthly and approved by the Public Service Commission of Wisconsin. The Gas Supply Charge as of December 2017 is \$0.4319 per therm.

A typical residential natural gas customer using an average of 55 therms a month will see an increase of about \$4.65 per month. Individual customer bills may vary depending on service schedule and usage characteristics.

Residential Natural Gas Service		
Customer Charge\$14.00/mo.	Distribution Charge\$0.3460/therm	Gas Supply Charge\$0.4319/therm
