

**Solar Garden Point of Interconnection (POI) and Medium Voltage (MV) Inspection Form**

Site name: \_\_\_\_\_

Site address: \_\_\_\_\_

SRC#'s: \_\_\_\_\_

Permit #: \_\_\_\_\_

Date: \_\_\_\_\_

The Community Solar Garden listed above has been inspected at the POI and MV equipment. The site and all circuits are in an acceptable state of completion for utility energization. The site meets all state and local codes, however, the Request for Electrical Inspection (REI) may still be in issued status due to remaining items that need to be completed or inspected. The remaining items do not interfere with utility interconnection.

Note: Site must be inspected and form signed/uploaded a minimum 10 business days prior to being energized. Solar garden operators to upload document in salesforce for the associated SRC and send a copy to the SRCMN inbox ([SRCMN@xcelenergy.com](mailto:SRCMN@xcelenergy.com)) confirming it has been complete and uploaded.

State Electrical Inspector or Authority Having Jurisdiction (local AHJ)
